1 Identification of the substance/mixture and the company/undertaking

1.1 Product identifier
Trade name: A-013

1.2 Application of the substance / the mixture: Composite resin

1.3 Details of the supplier of the Safety Data Sheet
Manufacturer/Supplier:

Copps Industries, Inc.
10500 N Commerce Street
Mequon, WI 53092
Phone: (262) 238-1700

1.4 Emergency telephone number:
ChemTel Inc.
(800) 255-3924, +1 (813) 248-0585

2 Hazards identification

2.1 GHS Classification of the substance or mixture
- Skin Irritant 2; H315: Causes skin irritation.
- Eye Irritant 2; H319: Causes serious eye irritation.
- Skin Sensitizer 1; H317: May cause and allergic skin reaction.

2.2 GHS Label elements
Hazard pictograms/symbols

Signal word: Warning

Hazard statements:
H315: Causes skin irritation.
H319: Causes serious eye irritation.
H317: May cause and allergic skin reaction.

Precautionary statements:
P280: wear protective gloves / eye protection.
P273: Avoid release to the environment.
P264: Wash thoroughly after handling.
P261: Avoid breathing mist/vapours/spray.
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P333+P313: If skin irritation or rash occurs: Get medical advice/attention.
P337+P313: If eye irritation persists: Get medical advice/attention.

Additional information: Contains epoxy constituents. May produce an allergic reaction.

HMIS Rating:
- Health: 2
- Flammability: 1
- Physical Hazard: 0

3 Composition/information on ingredients

3.2 Mixture
Description: Substance listed below with nonhazardous additions possible.

Dangerous components:

| CAS: 28064-14-4 | Reaction product: Bisphenol F- (epichlorohydrin); epoxy resin | 70-90% |
4 First aid measures

4.1 Description of first aid measures
General information: Immediately remove any clothing soiled by the product. Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident. Take affected persons out into the fresh air.
After inhalation: Supply fresh air; consult doctor in case of complaints.
After skin contact: Immediately rinse with water. If skin irritation continues, consult a doctor.
After eye contact: Remove contact lenses if worn, if possible. Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
After swallowing: Rinse out mouth and then drink plenty of water. Do not induce vomiting; call for medical help immediately.

4.2 Most important symptoms and effects, both acute and delayed: Allergic reactions, Nausea, Coughing, Gastric or intestinal disorders, Irritant to skin and mucous membranes, Irritant to eyes

4.3 Indication of any immediate medical attention and special treatment needed: Contains reaction product: Reaction product: Bisphenol F- (epichlorohydrin); epoxy resin. May produce an allergic reaction. If necessary oxygen respiration treatment. Later observation for pneumonia and pulmonary edema. Medical supervision for at least 48 hours.

5 Firefighting measures

5.1 Extinguishing media
Suitable extinguishing agents: Water haze or fog, Foam, Fire-extinguishing powder, Carbon dioxide
For safety reasons unsuitable extinguishing agents: Water with full jet, Water spray

5.2 Special hazards arising from the substance or mixture: Formation of toxic gases is possible during heating or in case of fire.

5.3 Advice for the firefighters
Additional information: Cool endangered receptacles with water fog or haze. Eliminate all ignition sources if safe to do so.

6 Accidental release measures

6.2 Environmental precautions: Do not allow to enter sewers/surface or ground water. Inform respective authorities in case of seepage into water course or sewage system. Prevent from spreading (e.g. by damming-in or oil barriers).
6.3 Methods and material for containment and cleaning up: Absorb liquid components with liquid-binding material. Send for recovery or disposal in suitable receptacles. Dispose contaminated material as waste according to item 13. Ensure adequate ventilation.

7 Handling and storage

7.1 Precautions for safe handling:
Use only in well-ventilated areas.
Store in cool, dry place in tightly closed receptacles (60-80°F recommended).

7.2 Conditions for safe storage, including any incompatibilities:
Use only receptacles specifically permitted for this substance/product.
Avoid storage near extreme heat, ignition sources or open flame.
Further Information about storage conditions:
Keep container tightly sealed.
Store in an area with adequate ventilation.

8 Exposure controls/personal protection
8.1 Control parameters
Ingredients with limit values that require monitoring at the workplace:
The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
DNELs: No further relevant information available.
PNECs: No further relevant information available.
Additional information: The lists valid during the making were used as basis.

8.2 Engineering controls
Provide readily accessible eye wash stations and safety showers.
Provide ventilation adequate to ensure concentrations are minimized.

8.3 Personal protective equipment
General protective and hygienic measures:
Keep away from foodstuffs, beverages and feed.
Immediately remove all soiled and contaminated clothing.
Wash hands before breaks and at the end of work.
Do not inhale gases / fumes / aerosols.
Avoid contact with the eyes and skin.
Respiratory protection:
Not required under normal conditions of use.
Use suitable respiratory protective device in case of insufficient ventilation.
For spills, respiratory protection may be advisable.
Use respiratory protection when grinding or cutting material.
Hand protection:
Protective, impervious gloves. (Neoprene, PVC, Nitrile rubber)
The glove material has to be impermeable and resistant to the product / the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.
Eye protection:
Safety glasses with side shields.
Contact lenses should not be worn.
Skin and Body protection:
Protective work clothing.
Where potential exposure warrants, rubber or plastic boots and chemically resistant protective suit.

9 Physical and chemical properties

9.1 Information on basic physical and chemical properties
General Information
Appearance
Form: Liquid
Colour: Clear
Odour: Sweet
Odour threshold: No data available
pH: No data available
Melting point/range: No data available
Boiling point/range: >302 °F / >150 °C
Flash point: >200 °F / >93°C
Evaporation rate: No data available
Flammability (solid, gaseous): Not applicable
Upper/lower flammability or explosive limit: Not applicable
Vapor pressure: No data available
Vapor density: No data available
Relative Density at 20°C: 1.14 g/cm³
Solubility in / Miscibility with
Water: Not miscible or difficult to mix.
Partition coefficient (n-octanol/water): No data available
Auto/Self-ignition temperature: No data available
Decomposition temperature: No data available
Viscosity 700 – 1,300 cps

10 Stability and reactivity

10.1 Reactivity
10.2 Chemical stability
Thermal decomposition / conditions to be avoided:
No decomposition if used and stored according to specifications.
10.3 Possibility of hazardous reactions:
Reacts with strong alkali.
Exothermic polymerization.
Reacts with strong acids and oxidizing agents.
Reacts with catalysts.
10.4 Conditions to avoid:
Avoid contact with strong oxidizing agents, excessive heat or flames.
10.5 Incompatible materials:
Strong acids, bases and oxidizing agents.
10.6 Hazardous decomposition products:
Carbon monoxide and carbon dioxide.

11 Toxicological information

11.1 Information on likely routes of exposure:
Inhalation: May cause respiratory irritation
Ingestion: No data
Skin contact: May cause skin irritation
Eye contact: May cause eye irritation
11.2 Symptoms related to physical, chemical and toxicological characteristics: No available data
11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure:
(Data for primary component, Reaction product: Bisphenol F- (epichlorohydrin), epoxy resin
Acute toxic:
Oral LD50 > 2,000 mg/kg (rat)
Dermal LD50 > 2,000 mg/kg (rat)
Inhalation No data
11.4 Numerical measures of toxicity: No data available for mixture.
Additional toxicological information:
The product show the following dangers according to the calculation method of the General EU
Classification Guidelines for Preparations as issued in the latest version: Irritant
Danger through skin absorption.
Toxic and/or corrosive effects may be delayed up to 24 hours.
Inhalation of concentrated vapours as well as oral intake will lead to anesthesia-like conditions and headache,
dizziness, etc.

12 Ecological information

12.1 Toxicity
Aquatic toxicity:
No further relevant information available.
12.2 Persistence and degradability: No data available.
12.3 Bioaccumulative potential: No further relevant information available.
12.4 Mobility in soil: No further relevant information available.
12.5 Results of PBT and vPvB assessment:
PBT: Not applicable.
vPvB: Not applicable.
12.6 Other adverse effects: No further relevant information available

13 Disposal considerations

13.1 Waste treatment methods
Waste from residue/unused product:
This product should not be allowed to enter drains, water courses or the soil. Dispose of this material in a safe manner and in
accordance with federal, state and local regulations.
Contaminated packaging:
Disposal must be made in accordance with official federal, state and local regulations.

14 Transport information

1 Identification of the substance/mixture and the company/undertaking

1.1 Product identifier
Trade name: B-223 Hardener

1.2 Application of the substance / the mixture: Composite epoxy

1.3 Details of the supplier of the Safety Data Sheet
Manufacturer/Supplier:

Copps Industries, Inc.
10500 N Commerce Street
Mequon, WI 53092
Phone: (262) 238-1700

1.4 Emergency telephone number:
ChemTel Inc.
(800) 255-3924, +1 (813) 248-0585

2 Hazards identification

2.1 GHS Classification of the substance or mixture
Acute Toxicity – Oral; Category 4
Acute Toxicity – Inhalation; Category 3
Acute Toxicity – Dermal; Category 3
Flammable liquids; Category 4
Skin Corrosion; Category 1B
Serious Eye Damage; Category 1
Skin Sensitization; Category 1
Germ cell mutagenicity - Category 2
Specific target organ toxicity - repeated exposure - Category 2
Specific target organ toxicity - single exposure - Category 3

2.2 GHS Label elements
Hazard pictograms/symbols
Signal word: Danger
Hazard statements:
H227: Combustible liquid
H302: Harmful if swallowed.
H311+H331: Toxic in contact with skin or inhaled.
H314: Causes severe skin burns and eye damage.
H317: May cause an allergic skin reaction.
H335: May cause respiratory irritation.
H341: Suspected of causing genetic defects
H373: May cause damage to organs through prolonged or repeated exposure.

Precautionary statements:
P201: Obtain special instructions before use.
P260: Do not breath dust/fume/gas/mist/vapours/spray.
P264: Wash hands thoroughly after handling.
P270: Do not eat, drink or smoke when using this product.
P271: Use only outdoors or in a well-ventilated area.
P280: Wear protective gloves/protective clothing/eye protection/face protection.
P281: Use personal protective equipment as required
P301+P312: IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.
P302+P352: IF ON SKIN: Wash with plenty of soap and water.
P304+340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310: Immediately call a POISON CENTRE or doctor/physician.
P333+P313: If skin irritation or rash occurs: Get medical advice/attention.
P363: Wash contaminated clothing before reuse.
P310: Immediately call a POISON CENTRE or doctor/physician.
P370+P378: In case of fire, use recommended extinguishing media for extinction.
P403+P233: Store in a well-ventilated place. Keep container tightly closed.

Additional information: Toxic in contact with skin. Toxic by inhalation. Corrosive, Severe respiratory irritant. Severe skin irritant. Severe eye irritant. May cause sensitization by skin contact.

HMIS Rating:
- Health: 3
- Flammability: 2
- Physical Hazard: 0

3 Composition/information on ingredients

3.2 Mixture
Description: Mixture of substances listed below with potential nonhazardous additions.

<table>
<thead>

</tbody>
</table>

In conformity with 29CFR 1910.1200(i) the specific chemical identity may be withheld as Trade Secret, while all health/safety properties and effects are included in the SDS.

4 First aid measures

4.1 Description of first aid measures
General information: Seek medical advice. If breathing has stopped or is labored, give assisted respirations. Supplemental oxygen may be indicated. If the heart has stopped, trained personnel should begin cardiopulmonary resuscitation immediately.

After inhalation: Supply fresh air; consult doctor in case of complaints.
After skin contact: Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water. Cover wound with sterile dressing. Immediately remove contaminated clothing, and any extraneous chemical, if possible to do so without delay. NOTE TO PHYSICIANS: Application of corticosteroid cream has been effective in treating skin irritation. Initiate and maintain continuous irrigation until the patient receives medical care. If medical care is not promptly available, continue to irrigate for one hour. Flush immediately with copious amounts of water.
After eye contact: Rinse immediately with plenty of water, also under the eyelids, for at least 10 minutes Hold eyelids apart, initiate and maintain gentle and continuous irrigation until the patient receives medical care. If medical care is not promptly available, continue to irrigate for one hour.
After ingestion: Never give anything by mouth to an unconscious person. Prevent aspiration of vomit. Turn victim’s head to the side. Do not Induce vomiting; call for medical help immediately.

4.3 Indication of any immediate medical attention and special treatment needed: May cause an allergic reaction.

5 Firefighting measures

5.1 Extinguishing media
Suitable extinguishing agents: Foam, Fire-extinguishing powder, Carbon dioxide.

5.2 Specific hazards arising from the substance or mixture: Incomplete combustion may form carbon monoxide. May generate ammonia gas. May generate toxic nitrogen oxide gases. Flash back possible over considerable distance. In the event of fire, cool tanks with water spray. Fire or intense heat may cause violent rupture of packages. Burning produces noxious and toxic fumes. May form explosive mixtures in air. Downwind personnel must be evacuated.

5.3 Advice for the firefighters
Additional information: Cool endangered receptacles with water fog or haze. Eliminate all ignition sources if safe to do so.
6 Accidental release measures

6.2 Environmental precautions: Do not allow to enter sewers/surface or ground water. Inform respective authorities in case of seepage into water course or sewage system. Prevent from spreading (e.g. by damming – or oil barriers).
6.3 Methods and material for containment and cleaning up: Send for recovery or disposal in suitable receptacles. Dispose contaminated material as waste according to item 13. Ensure adequate ventilation.

7 Handling and storage

7.1 Precautions for safe handling: Use only in well-ventilated areas. Store in cool, dry place in tightly closed receptacles (60-80°F recommended).
7.2 Conditions for safe storage, including any incompatibilities: Use only receptacles specifically permitted for this substance/product. Avoid storage near extreme heat, ignition sources or open flame.
Further Information about storage conditions: Keep container tightly sealed. Store in an area with adequate ventilation.

8 Exposure controls/personal protection

8.1 Control parameters
Exposure Limits:

<table>

<td>Time Weighted Average (TWA); TN OEL 5 ppm 19 mg/m3</td>
</tr>
</tbody>
</table>

8.2 Engineering controls
Provide readily accessible eye wash stations and safety showers. Provide ventilation adequate to ensure concentrations are minimized.
8.3 Personal protective equipment
General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Do not inhale gases / fumes / aerosols. Avoid contact with the eyes and skin.
Respiratory protection: Not required under normal conditions of use. Use suitable respiratory protective device in case of insufficient ventilation. For spills, respiratory protection may be advisable. Use respiratory protection when grinding or cutting material.
Hand protection: Protective, impervious gloves. (Neoprene, Butyl-rubber, Nitrile rubber) The glove material has to be impermeable and resistant to the product / the substance / the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.
Eye protection: Face shield with safety glasses or goggles underneath. Contact lenses should not be worn.
Skin and Body protection: Protective work clothing. Where potential exposure warrants, rubber or plastic boots and chemically resistant protective suit.

9 Physical and chemical properties

9.1 Information on basic physical and chemical properties
General Information
Appearance
Form: Liquid
Colour: Brown-greenish
Odour: Amine
Odour threshold: No data available
pH: Alkaline
Melting point/range: No data available
Boiling point/range: >392 °F / >200 °C
Safety Data Sheet

Revision Date 08.19.2022

Flash point: >82 °C (>180 °F)
Evaporation rate: No data available
Flammability (solid, gaseous): Not applicable
Upper/lower flammability or explosive limit: Not applicable
Vapor pressure: No data available
Vapor density: No data available
Relative Density at 20°C: 1.01 g/cm³
Solubility in / Miscibility with Water: Slightly soluble
Partition coefficient (n-octanol/water): No data available
Auto/Self-ignition temperature: No data available
Decomposition temperature: No data available
Viscosity: 40 – 100 cps

10 Stability and reactivity

10.1 Reactivity
10.2 Chemical stability
Thermal decomposition / conditions to be avoided: No decomposition if used and stored according to specifications.
10.3 Possibility of hazardous reactions: Reacts with strong alkali, Exothermic polymerization, Reacts with strong acids and oxidizing agents, Reacts with catalysts.
10.4 Conditions to avoid: Avoid contact with strong oxidizing agents, excessive heat or flames.
10.5 Incompatible materials: Strong acids, bases and oxidizing agents.
10.6 Hazardous decomposition products: Nitric acid, Ammonia, Nitrogen oxides (NOx), Nitrogen oxide can react with water vapors to form corrosive nitric acid, Carbon monoxide, Carbon dioxide (CO2), Aldehydes, Flammable hydrocarbon fragments.

11 Toxicological information

11.1 Information on likely routes of exposure:
Skin contact: Toxic in contact with skin. Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting. Causes skin burns. If absorbed through the skin, may cause central nervous system effects, such as headache, nausea, dizziness, confusion, breathing difficulties.
Eye contact: Corneal edema may give rise to a perception of "blue haze" or "fog" around lights. Exposed individuals may see rings around bright lights. This effect is temporary and has no known residual effect. Product vapor can cause glaucoma (corneal edema) when absorbed into the tissue of the eye from the atmosphere. Causes eye burns. May cause blindness.
Ingestion: Harmful if swallowed. If ingested, severe burns of the mouth and throat, as well as a danger of perforation of the oesophagus and the stomach.
Inhalation: Toxic by inhalation. Inhalation of aerosol may cause irritation to the upper respiratory tract. In high concentrations may cause asphyxiation. Symptoms may include loss of mobility/consciousness. Victim may not be aware of asphyxiation. Can cause severe eye, skin and respiratory tract burns. Highly toxic by inhalation. May cause central nervous system effects, such as headache, nausea, dizziness, confusion, breathing difficulties. Severe cases of overexposure can result in respiratory failure.

11.2 Symptoms related to physical, chemical and toxicological characteristics: Repeated and/or prolonged exposures to low concentrations of vapors or aerosols may cause: sore throat, asthma, eye disease, kidney disorders, liver disorders, skin disorders and allergies.
11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure: This product contains no listed carcinogens according to IARC, ACGIH, NTP and/or OSHA in concentrations of 0.1 percent or greater. May cause allergic skin reaction. This product may cause adverse reproductive effects. Asthma, Eye disease, Kidney disorders, Liver disorders, Skin disorders and Allergies.
11.4 Numerical measures of toxicity: No data is available for full mixture.

12 Ecological information

12.1 Aquatic toxicity: No data available on the product itself.
Toxicity to daphnia –  
Components Phenol  
EC50 (48 h) : 4 - 7 mg/l  
Species : Daphnia

12.2 Persistence and degradability: No data available.  
12.3 Bioaccumulative potential: No data available on the product itself.  
12.4 Mobility in soil: No data available.  
12.5 Other adverse effects: No further relevant information available

13 Disposal considerations

13.1 Waste treatment methods
Waste from residue/unused product: This product should not be allowed to enter drains, water courses or the soil.  
Contaminated packaging: Disposal must be made in accordance with official federal, state and local regulations.
